### Epam Kazakhstan

Караганда, [www.epam.kz](http://www.epam.kz)

Информационные технологии, системная интеграция, интернет

- Системная интеграция, автоматизации технологических и бизнес-процессов предприятия, ИТ-консалтинг

### Front-end developer

At EPAM, I commenced my professional journey as a robust Middle Software Developer, contributing to the "Philip Morris" project ([pmi.com](http://pmi.com)). In this role, I employed a tech stack encompassing JS, ReactJS, Gulp, Handlebars, AWS, and Jira. Working within a large team, our collaborative efforts focused on developing new features and addressing bugs within the project. This experience provided me with a solid foundation and exposure to various technologies while actively participating in the enhancement of a prominent project for Philip Morris International.

### Gamma technologies

[gamma.kz](http://gamma.kz)

### Full-stack developer

At Gamma Technologies, I served as a robust Middle Full Stack Developer, proficient in a diverse tech stack that included JS (Vue.js), ReactJS, PHP (Yii2, Laravel), and Cryptography. Notably, I gained invaluable experience working on my first international project, [ca.gamma.kz](http://ca.gamma.kz), where we focused on developing security software tailored for banking services in Kazakhstan. This opportunity allowed me to expand my skill set and contribute significantly to the implementation of cutting-edge solutions in the realm of cryptography within the financial sector.

### Transavia

[transavia.kz/](http://transavia.kz/)

### Front-end developer

During my role as a Middle Front-End Developer at the company, I specialized in utilizing JS technologies, including Vue.js and Nuxt.js, along with Amadeus technologies, for a B2B project. My responsibilities encompassed testing the project, implementing new features, and adapting to the

evolving business requirements. This experience allowed me to actively contribute to the project's success by ensuring its functionality, adding enhancements, and aligning it with the dynamic needs of the business.

**AVsoft**  
Казахстан, avsoft.kz/

Full-stack developer

During my tenure at the company, I served as a Junior Software Engineer, contributing to a diverse array of projects. My responsibilities included utilizing technologies such as JavaScript (Vue.js) and PHP (Laravel). I successfully handled a wide range of projects, from creating landing pages to developing comprehensive news portals. Throughout this experience, I collaborated closely with my advisor, a seasoned Senior Developer, to enhance my skills and contribute effectively to the team.
